SUMMARY

App Developer with industry experience building scalable mobile applications using Flutter, Kotlin, and Firebase. Over 6 years of app development experience starting with Kodular (App Inventor). Skilled in API integration, performance optimization, and real-time data handling. Experienced in deploying and managing apps via Google Play Console.

SKILLS

- **Languages:** Dart, Kotlin, Python, Java, C, SQL
- **Frameworks:** Flutter, Jetpack Compose
- **Backend:** Firebase (Firestore, Realtime Database, Authentication)
- **API Tools:** Postman, REST APIs
- **Tools:** Figma, N8N
- **Other:** Google Play Console, Godot (Basics)

EXPERIENCE

Flutter Developer

Quadvare Technologies, Perinthalmanna, Kerala, India

Nov 2024 – Oct 2025

- Developed and maintained mobile applications using Flutter.
- Integrated Firebase services including Firestore and Authentication.
- Built responsive UI components and improved application performance.
- Worked with REST APIs for dynamic data handling.

App Developer (Kodular / App Inventor)

Self Projects

2020 – Present

- Built multiple mobile applications using Kodular platform.
- Developed strong foundation in app logic, UI design, and workflows.
- Published and tested applications with real users.

PROJECTS

OfferOx – Local Offers App

- Developed a Flutter app to display real-time local offers.
- Integrated Firebase backend for dynamic data handling.
- Implemented location-based filtering for personalized experience.

IPTV Streaming App (Kotlin + Jetpack Compose)

- Developed IPTV application using Kotlin and Jetpack Compose.
- Integrated Xstream Codes API for live streaming and series playback.
- Ensured stable real-time streaming performance across media formats.

Aima Blood Donation App

- Developed an application to connect blood donors and recipients.
- Designed user-friendly interface for quick donor search and contact.
- Focused on real-time usability and accessibility.

Clipboard Sharing Web App

- Developed a Flutter web app for cross-device clipboard sharing.
- Implemented real-time synchronization using Firebase.

POSITIONS OF RESPONSIBILITY

Student Coordinator

FOSS Club MEAEC

- Organized technical events and promoted open-source culture.

EDUCATION

B.Tech in Computer Science Engineering

2024 – Present

MEA Engineering College, Malappuram, Kerala

- NAAC Accredited Institution; among top-ranked self-financing colleges in Kerala.

CERTIFICATIONS & ACHIEVEMENTS

- Completed 6-month Internship in Flutter App Development – Quadvare Technologies
- Participated in MILEN 7.0 Technical Camp – IEEE Student Branch
- Participated in n8n Automation Workshops – IEEE & FOSS Club
- Participated in Ubuntu Workshop – ICFOSS
- Completed AI Tools & ChatGPT Workshop – be10x
- Participated in TARANG Tech Fest Project Expo
- **Winner – Logo Design Contest (1st Place)**
